

# OFFERING TURNKEY SOLUTIONS FOR YOUR SUBSEA RISER SYSTEMS

PCC Energy Group's engineered products are designed to meet needs for the most critical applications. Recognized by the industry as a leader in producing the longest integral parts and specialty alloys, PCC Energy Group combines all aspects of manufacturing riser components to offer turnkey solutions to the subsea market.

## PRODUCTS

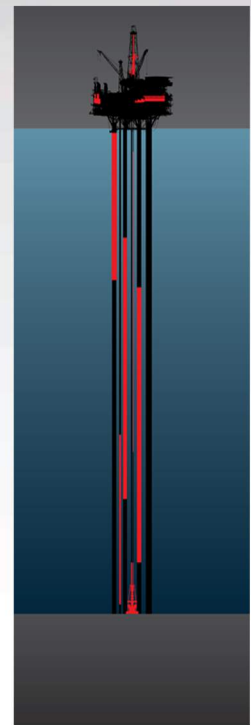

- Pull Tube Stress Joints
- Keel Joints
- Titanium & Steel Stress Joints
- Connectors
- Adaptor Bushings
- Top Tension Risers
- Transition Joints
- Specialty Joints
- Jumper Lines
- Spools and Flanges

## UNIQUE CAPABILITIES

- Fully integrated manufacturing:
  - Forging, Extrusion, Machining, Fabrication
- Finish machine lengths +85 ft capability
- Cladding full length ID bores
- Precision tapered ODs
- Threading equipment
- Full turning, boring, honing
- Coating and assembly

## ALLOYS

- ASTM A182 F22
- A707 GR L5, 1, 3W
- Various Titanium Grades
- 4130, 8630, 694
- 625, 718, 825, 945X
- X52, X65, X70, X80
